1. How to turn it on and off
Press and hold the power button on the bottom right side of the screen to turn it on, do the same to turn it off.

2. How to use the whiteboard
   a. Draw with your friends
      You just need enough pens. Up to 4 people can draw on the board at the same time. Just make sure that there is enough space between pens when drawing.

   b. Use anything to draw
      You can draw on the whiteboard with the supplied pen or you can use any cylindrical object with a thicker end and a thinner end (e.g. a chopstick)
c. Pen and highlighter functions
   Use the thin end of the pen for the pen function and the thick end for the highlighter function.

3. Customising the whiteboard and pen output
   a. Change pen thickness
      i. Tap on the icon with 3 horizontal lines at the bottom centre of the screen
      ii. Tap on the gears icon
      iii. Tap on the Pen & Highlighter Thickness

   b. Change colour of pen and highlighter
      i. Touch and hold the screen with the pen part of the pen or the highlighter part of the pen.
      ii. The colour palette will appear. Select the colour you want the pen to output.

c. Change the colour of the board
The default colour of the board is white but it can be changed to black.

i. Tap on the icon with 3 horizontal lines at the bottom centre of the screen

ii. Select “Blackboard” in the list that appears above it.

iii. Repeat steps above to change the board back to white.
4. Managing Pages
   a. Continue to a new page by scrolling the page breaking line
      Touch the dotted line at the end of the page and drag to the left to move to the next page. Drag to the right to go back to the previous page.
   
   b. Make a new page
      i. Tap on the page icon at the bottom centre of the screen
      ii. Tap on the “+” icon at the end of the new page.
5. Bringing your work home
   i. Insert a thumb drive into the USB port under the right part of the screen
   ii. Save your work with the EXPORT function
   iii. When you check your thumb drive, you will find a .pdf file, .iwb file for the extension

<table>
<thead>
<tr>
<th>Name</th>
<th>Date modified</th>
<th>Type</th>
<th>Size</th>
</tr>
</thead>
<tbody>
<tr>
<td>2018-05-11_0004.iwb</td>
<td>11-May-18 1:33 PM</td>
<td>IWB File</td>
<td>167 KB</td>
</tr>
<tr>
<td>2018-05-01_0004</td>
<td>11-May-18 1:33 PM</td>
<td>PDF File</td>
<td>332 KB</td>
</tr>
</tbody>
</table>

Keep the .iwb file. It allows you to continue editing work on the Samsung FLiP as an importable file.

6. Edit on existing work with the “Import” function

   The Samsung FLiP only allows you to import images and .iwb file formats (which is generated if you have exported your previous work from Samsung FLiP.
   i. To import an item, tap on “Import” at the top centre part the screen.
ii. Tap on the USB icon to access your Thumb Drive for work you would like to edit.
